# ETID and Intransit Control System (ICS)

- The ICS is a DoD tracking system for property designated for disposal by DRMS.
- ETID was designed to improve compliance with the ICS requirements.
  - Property that meets ICS criteria is automatically entered for the generator
- Approved ETIDs that are never turned in can cause ICS mismatches

Use ETID for legitimate  
Turn-ins

Notify DRMO if property subject  
to ICS tracking will not be turned in
